

To

The President of Harvard,

I recently heard about your dismissal of Dr Swamy's summer courses due to the action by Diana Eck & Witzel. Firstly I think it is your loss & our gain for it is really time to stop the brain drain to a brainwashed sold out institute to arabic islamic petrodollars.

Further it exposes the colonial orientalist and rascist ideology of the above 'indologists' who proclaim their supposed 'progressive expertitude' on all matters pertaining to indian studies yet are too scared to really dialogue with indian intellectuals and scholars. The result is this form of pathetic censorship - part and parcel of islamic fatwa ideology combined with neo stalinism.

Any truthful critique of islam is deemed as 'rascist', yet its continual practice of centuries of its ideology of genocide of civilizations, cultures, languages & institutionalized slavery in various parts of the world are simply to be silenced by your 'sophisticated' neo nazi mental generals.

For those of us who value the dignity of the mind, who value the evolution of responsible intelligence, who value the evolution of real learning, you are a simply a shameful disgrace.

Giti Thadani,

Writer, scholar & visual composer
